

Federal Government Dockyard Trades & Labour Council

BULLETIN

August 2, 2017

To All Members

Union Dues Issues

As reported in past bulletins, Council is working with the employer to correct all erroneous Union dues deductions for the members and the Affiliate Unions. We believe that the vast majority of incorrect dues have been rectified, however if any member is having the incorrect amount deducted, or in some cases no deduction for Union dues at all, please inform the Council office immediately. We cannot assist in correcting issues if we are not informed of them.

Please remember that it is the responsibility of every member to ensure that they are correctly paying their Union dues.

Apprentice Rates of Pay Grievance

Council has requested that the Public Service Labour Relations and Employment Board (PSLREB) bring our Apprentice Rates of Pay grievance out of abeyance and place it in the hearing schedule. We have retained our local legal advisor Ms. Robin Gage of Underhill, Boies Parker, Gage and Latimer to represent us in this matter. We will inform the membership when our hearing date is announced.

FMF Cape Breton Change of Command

Friday July 28, 2017 marked the official change of command for the FMF Cape Breton Commanding Officer. Capt.(N) Hooper has assumed command of the Unit, and we welcome him into his new role. We will be meeting with Capt.(N) Hooper in the coming weeks and look forward to the beginning of a collaborative and open working relationship.

In Solidarity,

Des Rogers
President
FGDTLC (W)
