FMFCB continues to provide support to the ships at sea, particularly with remote support and advice, by running the NESTRP range, and by providing materiel to rectify defects and to support CAL through her upcoming deployment. This work has been valuable – we have successfully helped to rectify a number "Cat 1" and "Cat 2" operational deficiencies while taking precautions to protect the crews from exposure to COVID-19. Now that immediate requirements are being addressed, CANFLTPAC will look at longer-term requirements in light of Op LASER and the response to COVID-19. This will then allow us to take a deliberate approach to understanding, planning for and executing critical tasks to support RCN, CAF and government requirements.	Production	S. Hassan	250-889-1330	R.
