Great work to all those involved in the planning or execution of the change-out of REGINA's sonar dome in Nanoose Bay on the weekend. FMFCB quickly contributed to a plan and worked with SS, FTA, FDU and TEME to ensure success of this evolution, helping to ensure competency in conducting this type of repair outside of dockyard. We saw HMNZS TE KAHA return to the dockyard on Friday after a brief docking at Esquimalt Graving Dock, and OTTAWA leaves the dockyard today to start her Docking Work Period under the care and custody of Victoria Shipyard. Thanks to those involved in the critical requirements for these ships. We'll also continue our support to the sailing fleet with at least one critical job in REGINA this week.	Production	S. Thanks for all you've been doing, including those tasked only with staying home and staying healthy. All of this is important work that ensures Canada has the capabilities it needs when it needs them!	Engineering	J. Morphet	250-888-7557	T. Percy	250-213-3767
