

FMF Cape Breton – Op LASER Update

2 November 2020

Current Posture: 3A "Surge"	Key Contact Information				
Update Message	Position	Primary	Phone	Alternate 1	Phone
<p>The last couple of weeks have been a bit less exciting around FMFCB than the previous few months – but this is likely a good thing for most, as we settle into more of a routine of executing planned work periods. We have been working on HMCS <i>Regina</i>'s docked Short Work Period (SWP), including supporting pre-Docking Work Period (DWP) surveys to help better scope the DWP, which should lead to better availability down the road. We also continue with the increasingly complex investigation, repairs and testing in HMCS <i>Victoria</i>. Though our work has been a little more predictable for the last few weeks, there have still been a number of shops putting in long hours on some jobs, for example on REG's Internet Support to Sailors (IS2S), and on a number of jobs in VIC – thanks to all.</p>	Operations / OCC Lead	Cdr S.
