

# FMF Cape Breton – Op LASER Update

1 November 2021

Current Posture: 3A "Surge"	Key Contact Information				
Update Message	Position	Primary	Phone	Alternate 1	Phone
<p>As stormy weather comes rolling into Vancouver Island, FMFCB is preparing for a steady stream of work including docking HMCS CALGARY to support underwater surveys in advance of the ship's EDWP. VANCOUVER started a SWP as the ship prepares for further trials leading up to a TGEX and deployment in the New Year. OTTAWA continued its EDWP2 where the focus is on system installation and reactivations in order to result in having OTT ready for sea by April 2022. On the submarines side, we commenced phase 1 of VICTORIA's work period 202 which is a very short 11 day project to enable operations at sea and overcame some significant technical challenges. Finally, we continued to provide support to CORNERBROOK's Tiered Readiness Trials. As mentioned in the October 8 DM-A/CDS message on COVID-19 vaccine requirement for the federal workforce, CDS Directive on CAF COVID-19 Vaccination, and CANFORGEN 149/21 (accessible only via the DWAN or CAF app), all Defence Team members are required to be fully vaccinated. If you have any questions or concerns, please discuss with your supervisor. Please visit the Defence Team COVID-19 web site for the latest information pertinent to both public service employees and military Defence Team members.</p>	Operations / OCC Lead	Cdr S.
