### Group Grievance - PSAC Strike Pay Recovery

Council has now filed a group grievance on behalf of all Ship Repair West members who have had wage loss due to the PSAC strike April 19-28, 2023. The pay recovery occurred on the paycheque of Feb. 14, 2024, and we filed the grievance today with Department of National Defence Labour Relations.

A group grievance requires the written consent of each of the employees concerned. In the next few days, the Affiliate Unions will be collecting signatures on forms that will be submitted to accompany the group grievance.

For members information, the language on the group grievance was developed by our legal counsel and his team. There is a cover sheet with the signature forms that has the grievance language on it so members know what has been submitted.

### Employee Assistance Program

This pay recovery can cause significant stress on members, if you are experiencing any difficulty, please reach out to the Employee Assistance Program. There are also many local support services that can be accessed, please reach out to them directly or to the Council Office for assistance in locating them.

In solidarity,

Des

Des Rogers
