For All SRW Members

We have received many questions about the use of the form T1198 Statement of Qualifying Retroactive Lump-Sum Payments. Members have been getting different answers to the question “does are retro qualify to use the form T1198 or not. Bargained retro does not qualify but arbitrated retro qualifies. The issue seems to be how our retro was entered in the pay system. We have sent an email to the Director General Civilian Compensation & Benefits in Ottawa for clarification. Once we receive an answer we will share with the membership.

Please post and share electronically where required.

In solidarity,

Kevin
